EDUCATION

A D Patel Institute of Technology   **2021 - Present**
Bachelor of Technology in Information Technology (CGPA - 7.90)   *Anand, Gujrat, India*

Ashadeep Vidhyabhavan   **2020 - 2021**
Higher Secondary School (Percentage - 84.62%)   *Surat, Gujrat, India*

Kaushal Vidhyabhavan   **2018 - 2019**
Secondary School (Percentage - 90.5%)   *Surat, Gujrat, India*

EXPERIENCE

CODE INFOSYS   **May 2024 – June 2024**
Frontend Developer Intern   *Surat, Gujarat, India*
- Developed and maintained dynamic and responsive web applications using **React** and other Frontend Technologies.
- Gained hands-on experience with tools and technologies like **Redux**, **Material-UI**, and **RESTful APIs**.
- mplemented interactive **UI components** and ensured cross-browser compatibility and performance optimization. .
- Contributed to code reviews and participated in agile development processes, enhancing my problem-solving and teamwork skills. .

PROJECTS

AGROPLUS | *Nodejs* | *Reactjs* | *Python* | *ExpressJs* | *Flask* | *MongoDB* | *Animation* | Github   **December 23 - February 24**
- Developed AgroPlus, a web application using **React** and **Node.js**, aimed at empowering farmers.
- Facilitates buying and selling of agricultural products, enhancing market accessibility for farmers.
- Displays APMC prices and government policies, providing critical information to farmers
- Includes functionalities for identifying plant diseases, aiding in crop management.
- Offers a chat platform for farmers to communicate and an AI-based chatbot to answer their questions.
- Provides up-to-date weather information, helping farmers plan their activities effectively.

CAMPUSBITES | *EJS* | *NodeJS* | *ExpressJS* | *MongoDB* | Github   **January 24 - April 24**
- Designed and implemented a user-friendly Canteen Management System enabling restaurant managers to add daily menus, receive and process customer orders, manage order completion, and maintain order history for enhanced service efficiency.
- Developed the system using **Express.js**, **Node.js**, **MongoDB**, and **EJS** for efficient backend and dynamic frontend rendering.
- Ensured data integrity and optimized queries in **MongoDB** to handle large volumes of order data effectively.

Eximo International (UI Design) | *Figma* | Figma File   **June 24**
- Designed and developed the user interface for Eximo International, an import-export company, using Figma.
- Conducted **UX Research** to understand user needs and preferences, leading to informed design decisions
- Created **Wireframes**, **Prototypes**, and **High-Fidelity Mockups** to visualize and iterate on the design.

ACHIEVEMENTS

* Finalist of Vadodara Police Hackathon 2023.
* Finalist of CVMU Hackathon 2024.
* Semi-Finalist of Code Unnati marathon 2024.

TECHNICAL SKILLS

Languages: C, C++, Python
Front-End Development Skills : HTML5, CSS3, JavaScript (ES6+)
Frameworks/Libraries: ReactJS, , Boostrap, Talwind
Tools: Figma, Spline
Others: Git, GitHub

EXTRA-CURRICULAR ACTIVITIES

- **NSS** Volunteer at ADIT.
- Event Volunteer at annual Tech Fest "**Spectrum**" in 2024 held in ADIT Collage, Anand.
